Where: Coober Pedy Area School – Deadly Centre

Who can attend: Preschool children and their families and community members with children from 0 – 5 years old

Please refer to your folders for all the Coober Pedy Council Community Activities.

Our Learning This Fortnight

Recycling Depot Excursion

On Tuesday, 15th of August we walked to the Coober Pedy Recycling Depot with our bottles and fruit boxes. We received \$2.50 for our recycling.

We drew what we learnt from the recycling depot.

Dairy Farming Journey

Dino said, "But...how does the milk come from the cow and then go to the shop?" With the use of videos and books the preschool children began their journey to answer Dino's question.

This is what they discovered:

- Dino said, "Only female cows can produce milk."
- Sia said, "Black and white cows are called dairy cows."
- Ivan said, "They have udders."
- Andreas said, "The truck takes the milk to the shop."
- Alexis said, "Milk is an everyday drink."

Please see our Term 3 Learning Wall or your child's individual observation folder to learn more about their involvement in the Dairy Farming Journey.

Kind Regards,
Preschool Educators.
